# PERSONAL PORTFOLIO WEB APPLICATION

**Dalia Alquwaidhi**
**202282360**

# PROJECT OVERVIEW

- **Personal portfolio web application**
- **Showcases my projects and skills**
- **Focus on clean design and usability**
- **Motivation: build a real, useful portfolio**

# TECHNICAL DEMONSTRATION

- **Front-end built with HTML, CSS, and JavaScript**
- **GitHub API integration and localStorage state management**
- **AI used for feature implementation, debugging, and code refinement**

# TECHNICAL DEEP DIVE

1. **Challenges: API integration and combining multiple features**
2. **Solutions: implemented filtering, sorting, and state management**
3. **Future work: backend integration and UI improvements**

# CONCLUSION

- **Completed a fully functional portfolio web application**
- **Demonstrated key concepts: API, logic, and state management**
- **Future improvements: backend integration and enhanced UI**

# THANK YOU
